Work Setting Analysis Worksheet

Analyze the resources, constraints and culture of NRCS that may affect the development, delivery, or application of training.

1. **Development Environment** – Describe any issues that will affect the design process and what actions were taken or are needed to facilitate the design of instruction.

2. **Delivery Environment** – Describe any issues that will affect the delivery of instruction and what actions were taken or are needed to facilitate the delivery of instruction.

3. **Application Environment** – Describe any issues that will affect the application of instruction and what actions were taken or are needed to facilitate the application of training on the job.
